

Have fun with this simple exercise:

Just cut around the solid lines and fold on the dotted lines. Follow the directions below.

1 Fold the bottom flaps as shown

2 Fold the wing flaps as shown

Fold dotted lines

Cut solid lines

3 Place a paperclip to the bottom as shown

Hold it as high as you can and let it drop. Try different sizes of paper chips and move the paper clip around to different places.

What happens if you fold the wings in opposite directions? Experiment with other changes to the helicopter. Have fun!
